RHSM Lower School students returned to school in the fall to find a beautifully remodeled computer room, new rooms for foreign language instruction, new sod around the campus, and sixty-five enthusiastic faculty and staff members ready for a new and exciting year.

Our curriculum focus for the year was science. The faculty spent a long weekend in October at the Teton Science School, and returned with many ideas for involving students in "hands on" science experiences. Thanks to donations from parents, we have a good beginning on our bird and mammal collection in the Van Evera science lab.

Classes went on many local expeditions, and occasionally left the classroom for life in the "field" - the sixth grades camped at Capital Reef, the fifth in Dinosaurland, and the fourth grades visited various ecosystems in the area. In January the sixth grades hosted seven students from Mexico. An after-school chess club drew many participants, and the chess team made us all proud by becoming state champions and also competing nationally.

Special emphasis was placed on knowing and caring for our environment. Our recycling projects were a great success, with students collecting plastic containers and aluminum. The proceeds from this project and from the sale of "art work" trees were used to purchase seedling trees which were planted in the canyons during our "Earth Day" celebration.

The school was actively involved in community projects this year. Anticipating the opening of the Homeless Preschool, students collected toys and other materials; they brought in warm clothing for the homeless, and have an on-going clothing collection for the Neighborhood House.

Our Christmas program theme was "All Creature Great and Small". The students sang and danced in numbers featuring birds and animals, including a golden crane and a multitude of penguins. We shared our joy in the holiday season by having a family evening of concert and caroling.

In February we had a very successful "Puttin' On The Arts" program, allowing students to demonstrate their vocal, instrumental, and dance talents, at a recital and or in a show. The students displayed wonderful art work around the school. There were also displays of children's poetry and faculty art work. An "Art Gallery" was established in the back hall for ongoing displays of faculty and student work.

Another area of the school that saw change was the physical education department, where fitness testing and aerobics joined our strong gymnastics and sports programs. Archery and aerobics proved to be popular additions to a winter sports program that also included swimming, ice and roller skating, skiing, and horseback riding.

It was an extremely active and productive year for parents, who spent countless hours supporting the faculty and students. In addition to remodeling the computer room, the Home & School Association provided track lighting in the faculty room, laminating and book binding machines, television sets and videos for Van E and the first floor of A building, and raised nearly \$4000 for the library through a very successful Book and Toy Fair. Parents organized parenting classes, parent forums and social events throughout the year. Their boundless energy and dedication were greatly appreciated.

Under the leadership of our Headmaster, Tom Jackson, the school has experienced ten outstanding years of growth and change. We are sorry to see him leave, and we will miss him. Though we anticipate new challenges ahead, we enter the new decade looking forward to many more years of educational excellence.
